

Eugen-Andrei Rof

Senior QA Engineer | Professional Scrum Master (PSM II)

Cluj-Napoca, Romania • [Gmail](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

I am a Senior QA Engineer & PSM II Scrum Master with 14+ years of experience engineering advanced automation frameworks across web, mobile, and hardware. I specialize in building robust, scalable testing ecosystems using Cypress, Playwright, and TypeScript, merging technical leadership with Scrum expertise to optimize team delivery. By driving Shift-Left initiatives and leveraging AI-assisted automation, I accelerate test coverage and edge-case detection while coaching cross-functional teams to master Agile efficiencies.

PROFESSIONAL EXPERIENCE

Senior QA Engineer | Scrum Master

QCatalyst Romania (Digital Velocity Group S.R.L.) — Cluj-Napoca | March 2022 – Present

- Led end-to-end QA strategy and Scrum Master responsibilities for a large-scale digital platform for the National Geographic Society, supporting a cross-functional team of 7 engineers in a 3-week sprint cycle and ensuring reliable delivery for a globally used platform with thousands of weekly users
- Built and maintained Cypress/TypeScript automation frameworks integrated into GitLab CI/CD, enabling continuous regression testing and faster release cycles
- Introduced performance testing with Grafana k6 and evaluated AI-assisted solutions to improve edge-case detection and streamline automation workflows
- Facilitated Scrum ceremonies, removed blockers, and improved collaboration across cross-functional teams

Senior Test Engineer

Endava Romania S.R.L. — Cluj-Napoca | November 2014 – March 2022

- Engineered BDD automation frameworks using Python (PyTest, Behave) for high-traffic digital media and OTT platforms, improving test coverage and release confidence
- Led testing efforts for embedded and OTT systems (IPTV, Android TV, Fire TV), leveraging real-device automation to ensure consistent performance across environments
- Validated APIs and managed defect lifecycles using Jira and Xray for a global payment gateway platform, ensuring compliance, traceability, and faster issue resolution
- Collaborated with international stakeholders in a team of 9 engineers working in 2-week sprints, contributing to requirement definition and delivering QA demos during each sprint review.

QA Engineer

Gama Software S.R.L. — Cluj-Napoca | December 2013 – November 2014

- Performed functional and cross-platform testing for academic management web applications across desktop and mobile (iOS, Android, Windows Phone), working within a team of 8 engineers in 2-week sprints to ensure consistent application behaviour and reliability
- Managed end-to-end QA cycles for medical education portals used by leading Canadian universities, including test planning, documentation, and presenting application demos to clients

QA Test Analyst

Quantic Lab S.R.L. — Cluj-Napoca | January 2012 – December 2013

- Executed functional, compliance, and compatibility testing for web, mobile, and console platforms (Nintendo, PlayStation, Xbox, PC, iOS, Android)
- Stepped into Lead Tester role for a PC project, managing a team of junior analysts across varying hardware configurations and OS environments
- Designed and maintained test suites with systematic defect tracking in Jira, Bugzilla, Mantis, and Redmine

PERSONAL PROJECTS & PORTFOLIO

[TC Chef – AI-Powered Test Case Generator](#)

- Developed a custom tool using the Gemini API to transform User Stories into structured CSV test cases or Gherkin/BDD feature files
- Supports standard test cases (CSV) and Gherkin/BDD format (.feature), plus full PDF Test Plan generation.
- Implemented shared API key fallback for frictionless onboarding, with user-owned key support for higher usage quotas. Built with HTML, CSS, and TypeScript

[AI Selector Healer – Intelligent Automation Repair Utility](#)

- Leverages the Gemini API and DOM snapshot analysis to diagnose broken locators and suggest high-stability alternatives for Cypress and Playwright
- Automates the resolution of failed selector issues, significantly reducing the manual maintenance overhead and technical debt within automation frameworks

[Sprint Capacity Planner – Agile Planning Tool](#)

- Developed a data-driven sprint capacity calculator with per-member allocation percentages, individual days off, and public holiday tracking
- Provides automatic recommended velocity based on real team availability, with capacity health indicators (High/Mid/Low) for sprint commitment guidance
- Features shareable plan URLs, PDF report export, and real-time dashboard updates. Built with HTML, CSS, and JavaScript

[Interactive CV – Dynamic Career Portfolio](#)

- Built an interactive, web-based version of this professional profile to showcase live automation demos and technical skill visualisations
- Implemented real-time data filtering and responsive design using HTML, CSS, and JavaScript

TECHNICAL SKILLS

Automation & Frameworks: Cypress, Playwright, Selenium WebDriver, WebdriverIO, Appium, PyTest, Behave

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS

CI/CD & DevOps: GitLab CI/CD, GitHub Actions, Jenkins, Docker, Git, Linux

Performance Testing: Grafana k6, JMeter, Artillery.io, Google Lighthouse, Datadog

API & Web: REST, SOAP, Postman, SoapUI, Insomnia, JSON, XML

Test Management: Jira, TestRail, Xray, Qase, Confluence, HP Quality Center, Zephyr

UX & Design: Figma, Miro, Lucidchart

AI Tools: Amazon Q, GitHub Copilot, Google Gemini, ChatGPT, Claude (Anthropic)

Methodologies: Scrum, Kanban, SAFe, Waterfall, BDD, TDD

Operating Systems: Windows, MacOS, Linux, Android, iOS, Raspberry Pi OS

INDUSTRY DOMAIN EXPERIENCE

- Non-Profit & Science: QA lifecycle for National Geographic Society digital content platforms
- FinTech & Insurance: Validation of next-gen payment pages for a high-traffic payment processing gateway
- IPTV & Telecom: Real-device automation for IPTV, Android TV, and Fire TV ecosystems (Witbe Workbench)
- Media & OTT: Streaming stability and UI performance testing for high-traffic OTT platforms
- Education/Healthcare: End-to-end QA cycles for medical education portals serving leading Canadian universities
- Gaming: Multi-platform across Nintendo, Sony PlayStation, Microsoft Xbox, PC, iOS, and Android

CERTIFICATIONS

Scrum.org:

- [Professional Scrum Master II \(PSM II\)](#)
- [Professional Scrum Master I \(PSM I\)](#)

International Software Test Institute:

- [Accredited Software Tester Certification \(ASTC\)](#)
- [Accredited Software Test Manager Certification \(ASTMC\)](#)

International Scrum Institute:

- [Scrum Master Accredited Certification \(SMAC\)](#)
- [Scrum Product Owner Accredited Certification \(SPOAC\)](#)

EDUCATION

Master's Degree in Applied Informatics | 2012 – 2014

Technical University of Cluj-Napoca - Faculty of Computer Science and Automation

Bachelor's Degree in Communication Sciences | 2009 – 2012

Babeş-Bolyai University of Cluj-Napoca - Faculty of History and Philosophy

LANGUAGES

English: Full professional proficiency (C1/C2)

French: Elementary proficiency (A2)

German: Beginner (A1)
